

NAVIGATING KOREAN HOSPITALS HANDBOOK

**Brian D. Allgood Army Community Hospital
(BDAACH)**

May 2022

Version 24

International SOS is honored to continue in our role as the TRICARE Overseas Program (TOP) contractor. We understand that many of our beneficiaries may be deployed or accompanying a sponsor overseas for the first time. As a result, you may be experiencing new languages, assimilating to new cultures, or even learning to navigate new street signs. All of this can be a daunting experience, especially when you first arrive to your Duty Station.

International SOS is committed to providing easy-to-access, high quality health care services, and putting your experience of care at the forefront of all that we do. To this end, International SOS is excited to introduce **MyCare Overseas™** — a secure and user-friendly Beneficiary Mobile App and web-based Portal that will enhance your health care experience.

MyCare Overseas™ is a self-service tool that offers easy access to our services, including checking your TRICARE Health Plan, verifying TRICARE covered services, and accessing other reliable sources of information.

FEATURES

Innovative Self-Service Features to Help Improve Your Patient Experience

24/7 Assistance

Quick access to the local Near Patient Team*, the Global First Call Desk, the Beneficiary Support Center, and Technical Support.

Chat

Access to a self-service ChatBot for immediate answers to FAQs and if needed, a direct link to chat with the Beneficiary Support Center.

My Appointments & Referrals

Keep track of your appointments and view provider contact details. Easy check of referral status and issued authorizations.

Healthcare Finder

Intuitive search tool which assists you in finding a TOP Network Provider.

Country Information

Useful country information such as emergency numbers, medical risk ratings and cultural tips.

My Medical Translations

Submit request for Medical Records Translations and download translated documents. **Note:** Applicable for TOP Prime and TOP Prime Remote ONLY.

Translation Help

Local language support via Microsoft Translate or easily connecting with real-time telephonic language assistance.

My Plan & Claims

Easy check of TRICARE Health Plan enrollment as well as useful links to TRICARE covered services and a direct link to the TOP Beneficiary Secure Claims Portal.

**International SOS' Near Patient Teams are available in Germany, Benelux (Belgium, Netherlands, Luxembourg), Italy, Spain, Greece, Poland, Bahrain, South Korea, and Japan.*

SUPPORTING THE PATIENT JOURNEY

The **MyCare Overseas™** Beneficiary App and Portal was developed based on actual feedback from TRICARE beneficiaries to address pain points, personal needs, and frustrations that may occur when trying to access health care overseas. This results in quicker access to clinical and non-clinical professionals who are dedicated to helping beneficiaries navigate their overseas health care experience.

ACCESSING MYCARE OVERSEAS™ BENEFICIARY APP AND PORTAL

To access the **MyCare Overseas™** Beneficiary App and Portal, simply download the app onto your mobile device and register. This provides secure access to all relevant information and timely notifications, for the best experience of care.

The **MyCare Overseas™** Beneficiary App and Portal is the entry point for all TRICARE Overseas health care services and streamlines access to a convenient, easy-to-use application. This means TOP beneficiaries are empowered to get the information they need when they need it. Beneficiaries can fill out an important Episode of Care feedback form, set up reminders about upcoming medical appointments, access and download International SOS authorizations, locate health care facilities on a map, access translation assistance, or obtain help with follow-on care or other medical instructions.

Scan the QR code below or click on the App Store or Google Play buttons to download the new MyCare Overseas™ Beneficiary App!

Alternatively, to access the new **MyCare Overseas™** web-based Portal using your personal computer or laptop, visit <https://top.internationalsos.com/beneficiary/>

Overview

We understand that seeking and receiving healthcare in a foreign country at a civilian hospital can cause hesitancy and concerns because of language barriers, transportation challenges, and stress associated with navigating in an unfamiliar environment and healthcare system.

Korean network hospitals are part of our network, and together with their international clinics provide the highest quality healthcare available on the Korean Peninsula. All TRICARE Network Hospitals are accredited by the Joint Commission International or the Korean Hospital Association. You may be pleasantly surprised to know that many of the medical staff speak English and a significant number were trained in the United States.

We are confident that this handbook will serve to assist you, help ease your concerns, and answer some of the questions you might have. We invite you to read this guide so you are better prepared to visit Korean Network Hospitals. Please refer to the table of contents page as needed.

KOREAN HOSPITALS AND INTERNATIONAL CLINICS

Most Network Korean Hospitals have an International Clinic with English speaking staff to assist you. Active Duty personnel must wear civilian clothing while visiting Korean hospitals in accordance with Army Regulation 670-1. TRICARE Prime Beneficiaries must have a referral before going to a Korean network hospital, unless it is for urgent or emergent care. When visiting one of our Korean Network Hospitals, you can expect a modern design and atmosphere with the same up to date technology as you would expect in the United States. Most of the signs will be in Hangul, the Korean language, with English translation to make it easier for international visitors to navigate through the hospital. Many of the staff speak some English, and understand English as long as you speak slowly and clearly. Our network providers will make every effort to understand your needs and concerns while attending to your care. Please be patient and cooperative with the hospital staff as they work to make sure you are taken care of in a timely manner. Many of the hospitals have interpreters during normal business hours. If you need assistance, the International Clinic will be glad to help and make sure that communication is clear, minimizing unneeded stress. Bringing a trusted friend or colleague who speaks Korean is also an option. Further interpretation options can be found later in this guide.

The Brian D. Allgood Healthcare Management Division / TRICARE Service Center is also here to help and ensure that you receive the best of care in a patient-friendly environment. Please let us know if you have difficulties or concerns with your care at a Network Hospital so that we can assist. Healthcare Management Division / TRICARE office DSN phone numbers are: (315) 737-1433. To dial a DSN number from your cell phone, dial 05033 and the last six number of the DSN phone number. For example, to dial DSN 737-1433, dial 0503 337 1433.

We are here to serve our community of beneficiaries across the Peninsula with the very best patient-friendly access to healthcare.

EMERGENCY CARE AFTER HOURS

When seeking emergency care at a Korean hospital after hours, be advised that the International Clinics might be closed. Some of the hospitals, however have a 24/7 English speaking service phone number; you will find these numbers in this handbook, on each hospital's information page. Usually emergency rooms will reach out to an English speaking person as well. In case of an emergency you can always call International SOS who manages your care overseas at 080-429-0880. If you are a TRICARE Prime beneficiary, Korean hospitals that are within the network will file claims for you. If you are a TRICARE Select beneficiary, be prepared to pay 100% upfront then file a claim to be reimbursed. See page 83 for the claim process. Every beneficiary must ensure that they get a diagnosis from your doctor for claims purposes. If you pay for medication, you will need both the doctor's prescription and a pharmacy receipt for claims processing.

OUTPATIENT HEALTH CARE

If you are receiving outpatient care and have an appointment scheduled, sometimes unexpected delays may occur (for example, a more emergent case), but usually you are seen promptly. Most Network Korean hospitals serve a very large community and work hard to ensure that each patient is seen and receives the best healthcare possible. It's a good idea to bring something to read or something to do to pass the time in case you experience a short delay. Also, the visit with your doctor is usually very brief. Doctors spend very little time with their patients. All Korean network hospitals provide cashless/claimless service for TRICARE Prime beneficiaries. Check hospital information pages to find hospitals that file claims for TRICARE Select beneficiaries.

INPATIENT HEALTH CARE

If you are admitted to a Korean hospital, you can expect to share either a room with another patient or in the more recently built hospitals, have a private room. TRICARE does not cover private rooms unless a semi-private room is unavailable at the time of admission. If you are in a private room and a semi-private room becomes available, you may have to move. The hospital staff will help move your belongings into your new room upon request. During your admission, a Nurse Consultant from your local Military Treatment Facility (MTF) may visit you as needed. You can also contact him or her if you have any questions or concerns. We highly recommend you to talk with the Nurse Consultant in your area to learn what you are expected to bring with you and what to expect at the hospital before you are admitted. Contact your local TRICARE Center at the MTF to find the Nurse Consultant in your area. Traditionally in Korea, family members attend to their relatives during their stay in a hospital. You may notice less nursing care in a Korean hospital than if you were in a U.S. hospital. Depending on the patient's condition and age, Family members or a Soldier's Chain of Command can expect to provide the patient with a non-medical attendant to assist with day to day patient activities during their stay. If you are not accompanied by a family member or attendant, most hospitals recognize the need for additional assistance and may try to accommodate your needs.

CULTURAL AWARENESS

We want to ensure that there is continuity of care and a seamless delivery of healthcare between our MTFs and Korean hospitals that are part of our network. However, we recognize that cultural differences do exist. The food, for example, in a HNH might not be what you expect, even the western menu, if offered. You might note that the medical staff do not always wear gloves during every procedure like they do in the U.S. During child birth and delivery, many hospitals will not allow the father to be in the room. No HNH will allow the father to be present during a C-section. You may experience a longer stay at a Korean network hospital than a western hospital as their approach to medicine and the healing process is different.

Although many hospitals have relaxed visiting hours, 2000 hours is considered the traditional time to conclude a visit so that patients can get needed rest. If you happen to share a room with another patient, it is best to refrain from playing loud music (use earphones) and if you need to make a call using your cell phone and are capable of walking, we recommend using the common area. Avoiding the use of strong aftershave, lotion, cologne, or perfume is also recommended as some patients may have allergies or sensitivities to strong smells.

Korean medical practice is also different than Western medicine. You might be used to being involved in the planning of your care, and would feel comfortable asking questions about your care. However, in Korean medicine the patient relies on the health professional's medical opinion and care administered without questioning or the desire to know the process. All of the clinical decisions are made by the doctor, who then gives guidance and direction to the staff (nurses and administrators). It may seem at times that the staff may not be listening to you or ignoring your needs, but know that this is not the case. They do understand your needs, but require the doctor to provide direction/approval before they can act upon your requests. Nurses, in particular, do not act as independent professionals, as American nurses do. If you are an in-patient and you need something to help you sleep or if you are having pain, advise the nurse as early as possible so that they may get the required order from your doctor.

Korean doctors tend to engage their patients less in the management of their cases. Often, the discussions with patients and family are limited with the doctor. The doctor might seem to be directive or uncommunicative, but this might be due to limited English-speaking ability or the reluctance to use their English. Again, be patient and try to develop a positive working relationship with your Korean doctor. Increasingly, many physicians in Korea have been trained abroad or understand the special needs of their American patients. Keep in mind that the goal is the same for all healthcare professionals and that is to deliver the best quality of care and return you to an optimal state of health. Brian D. Allgood Army Community Hospital staff continuously works with International SOS and Korean network hospitals to ensure our network providers follow appropriate standards of care for infection control and pain management.

MEDICAL RECORDS FROM NETWORK KOREAN HOSPITAL

Your Korean doctor understands that your Military Treatment Facility (MTF) provider will need a report on your care. If you are a TRICARE Prime beneficiary, the Korean network hospital will send your medical record to the TRICARE Service Center. If you are a TRICARE Select Beneficiary enrolled in TRICARE Plus, you are responsible for requesting, and delivery of your medical record to the closest MTF outpatient record office. If you may pay a medical record issuance service charge (20,000 ~ 30,000 Korean Won). Ensure that you pay it separately as this is not a reimbursable fee under TRICARE. Please ensure that any CD's containing X-Rays, CTs, MRIs, Ultrasounds, etc., are given to your enrolled MTF so that they can be uploaded into your electronic medical records. For Prime beneficiaries, Korean network hospitals have 10 business days to return routine care medical reports and 24 hours for urgent care reports.

AFTER GIVING BIRTH IN A NETWORK HOSPITAL

Ensure that your child is enrolled in DEERS. To register your child in DEERS, you must:

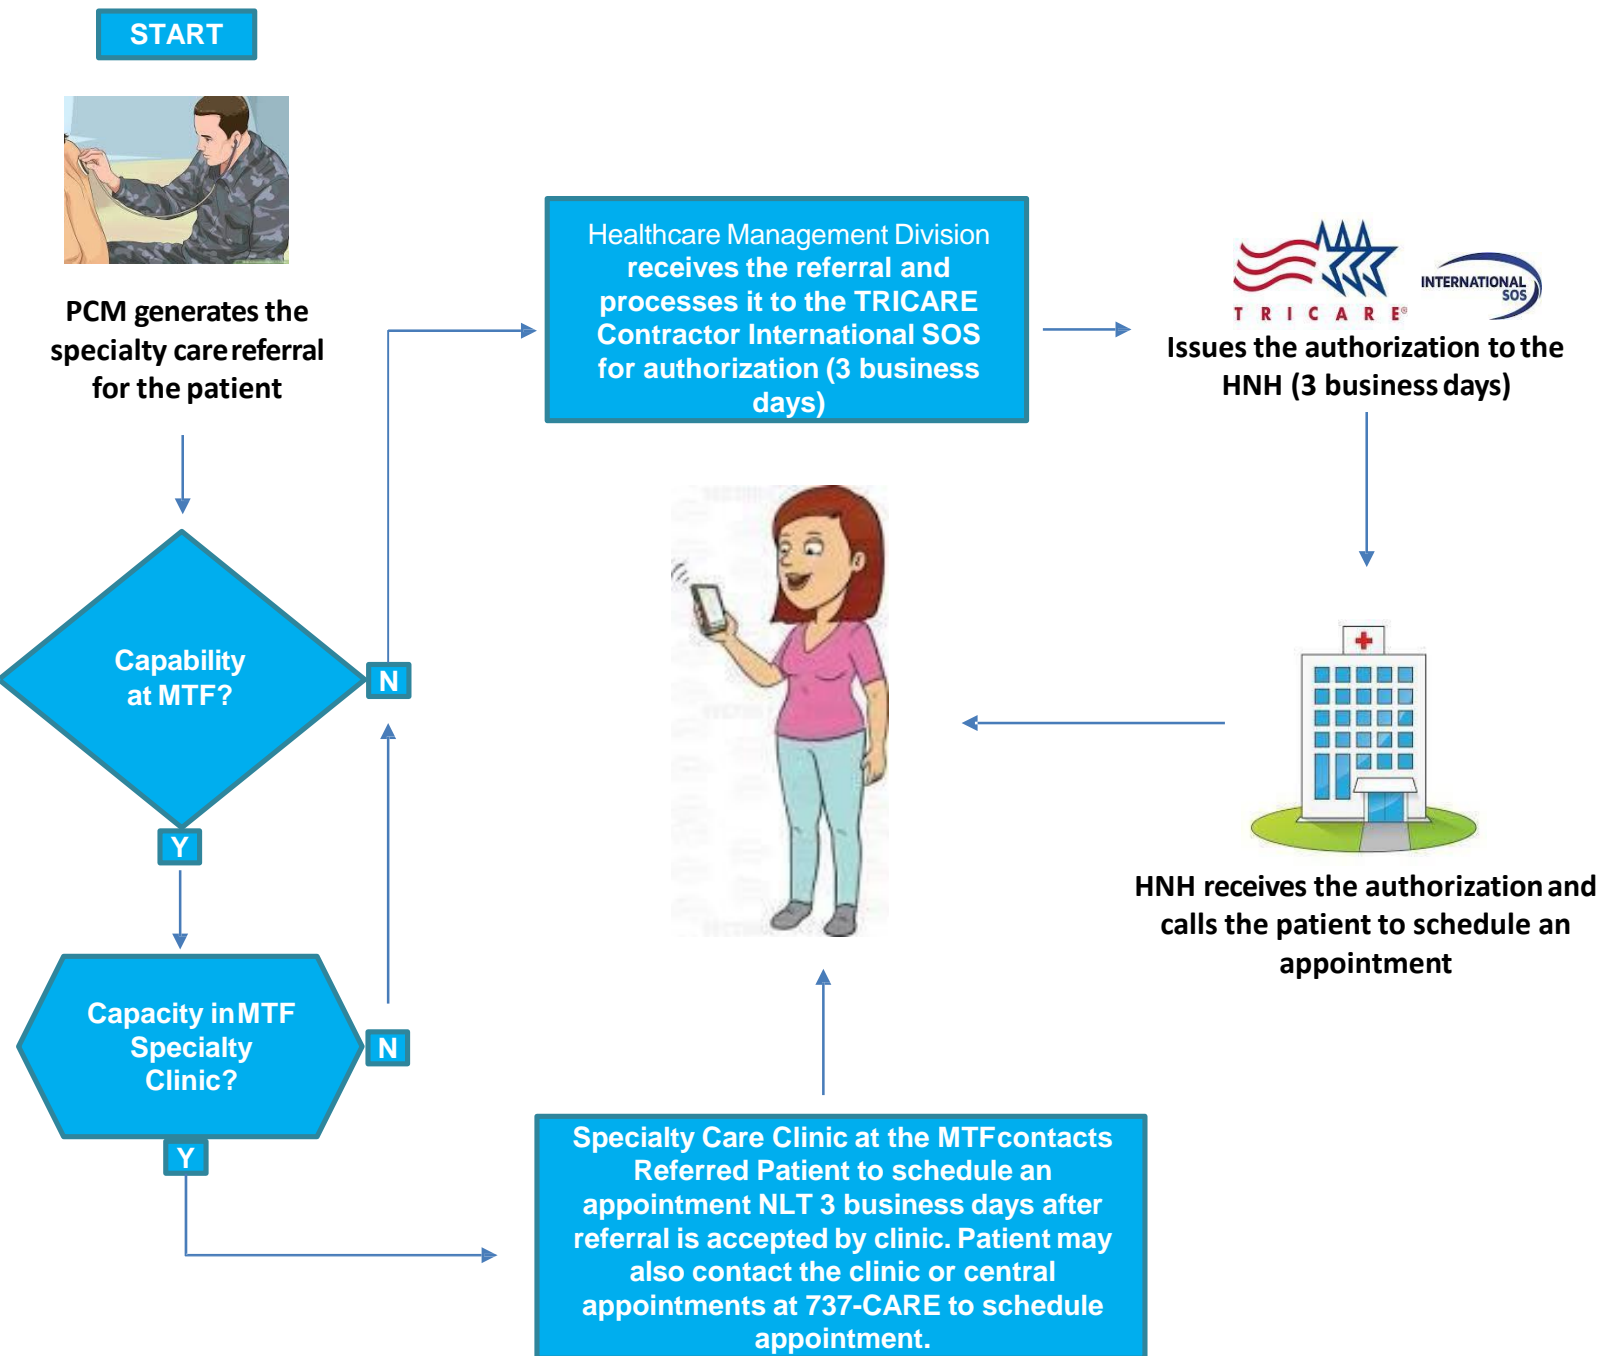

1. Get the birth certificate from the Korean hospital
2. Register your baby in the Defense Manpower Data Center DEERS. You won't need a Social Security Number (SSN) to register your child in DEERS; however, you will need to update your child's DEERS information as soon as you obtain the SSN
3. Register your baby in the Patient Administration Division (PAD)
4. Enroll your baby in a TRICARE program
5. Apply for your child's SSN. For more information on applying for an SSN, go to the Social Security Administration website at www.ssa.gov or call **1-800-772-1213**

NAVIGATING THE KOREAN HEALTH CARE SYSTEM FOR ROUTINE CARE

All TRICARE Prime patients require a referral for routine specialty care, non-urgent and non-emergent visits to Host Nation Hospitals (HNH). Urgent and Emergent visits do not require a referral.

TRICARE Select and TRICARE For Life patients do not require a referral from the MTF to receive any care at a Korean network HNH. This includes TRICARE Select and TRICARE for Life patients who are enrolled in TRICARE Plus.

REFERRAL PROCESS

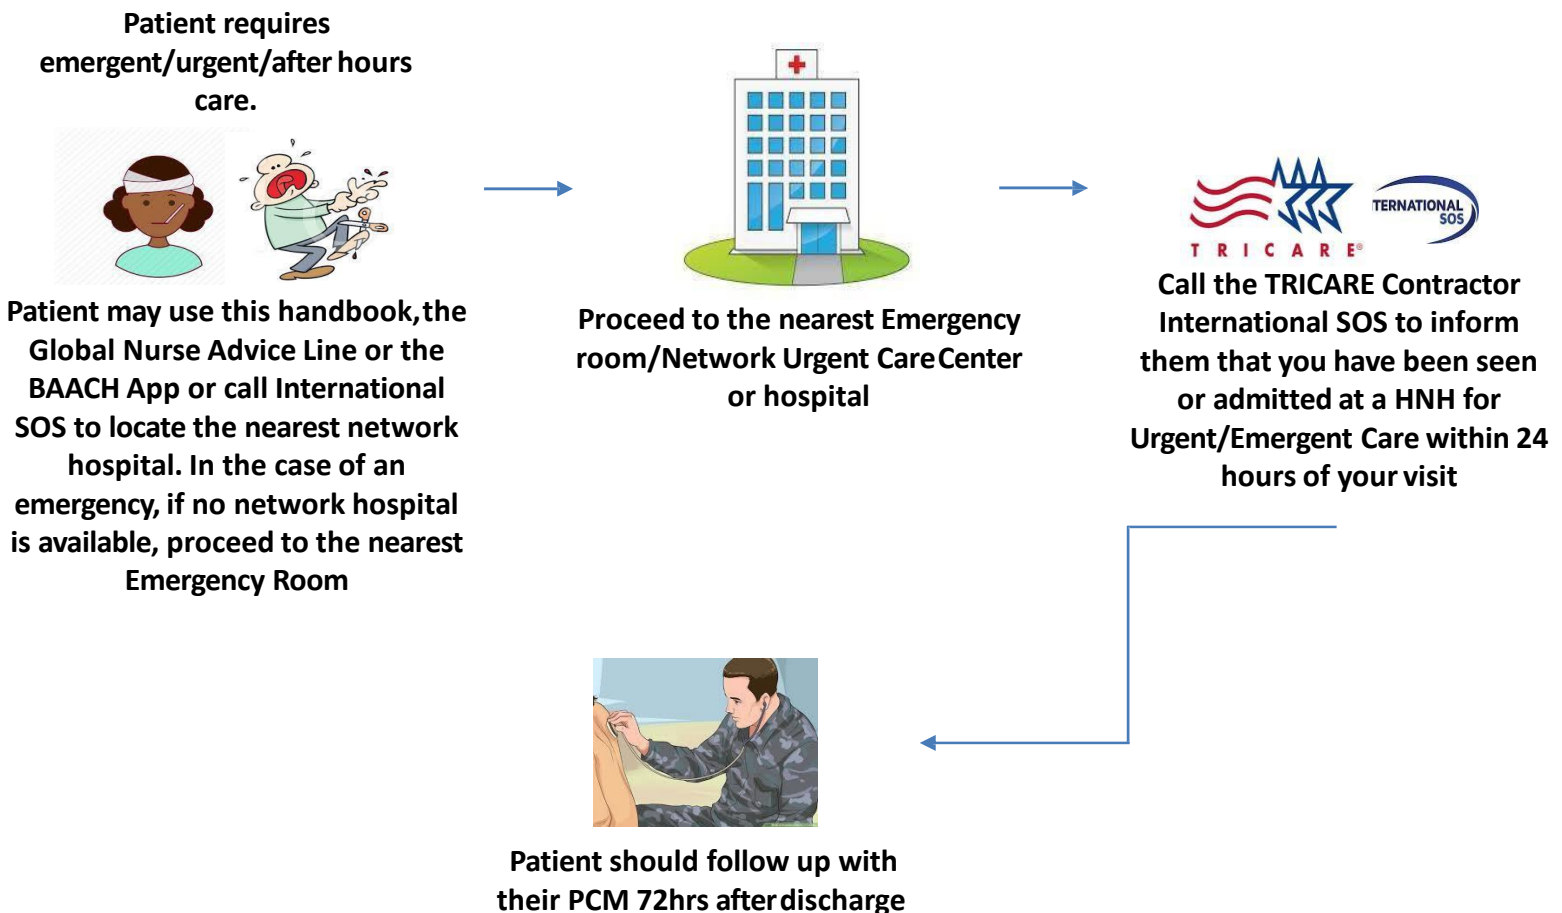

NAVIGATING THE KOREAN HEALTH CARE SYSTEM URGENT AND EMERGENT CARE

Urgent Care is categorized as care for medical conditions that are non-life threatening but still require medical attention within 24 hours. Emergent Care is categorized as care where life, limb, or eyesight are at risk if care is not rendered immediately.

When urgent and emergent care are not available at the MTF, patients should visit either the nearest network hospital or emergency room. Urgent and emergent visits do not require a referral for Prime patients, but urgent care visits may require a retroactive authorization from the TRICARE Contractor. Active Duty Soldiers should also inform their Chain of Command that they are visiting a HNH for urgent and emergent care. TRICARE Prime patients need to follow up with their PCM 72 hours after discharge from a HNH.

URGENT/EMERGENT CARE PROCESS FOR TRICARE PRIME BENEFICIARIES

PROOF OF TRICARE ELIGIBILITY

Always carry proof of TRICARE eligibility and know what type of TRICARE Plan you have.

1. Go to milConnect to <https://www.dmdc.osd.mil/milconnect/>
2. Click on “Obtain proof of health coverage” link
3. Login with DS Logon, CAC or DFAS myPay Password.
4. Under proof of coverage, select family member
5. Click on the “Generate” button
6. Click “Open” on the “MyEligibilityLetter” PDF document
7. Print and carry with you to the Korean network hospital

If you have any issues downloading your eligibility letter come to the TRICARE Service Center for assistance.

LANGUAGE SERVICES

Navigating in Korean network hospitals without understanding the language can be frustrating for anyone.

MyCare Overseas App provides local language support via Microsoft Translate or easily connecting with real-time telephonic language assistance.

COURTESY SHUTTLE SERVICES

Transportation in Korea can be difficult for newcomers. It takes some time to understand public transportation such as the subway, train, and city bus system. If you have a medical appointment at a Korean network hospital, your MTF provides courtesy shuttle services to and from your appointment to several Korean network hospitals. Courtesy shuttles run during the daytime; therefore, it is recommended that you schedule your shuttle appointments accordingly. Call the TRICARE Service Center in your area for information about courtesy shuttle schedules.

제주 한라 원으로 가 주세요 (Please go to Cheju Halla Hospital)

Cheju Int. Airport: Cheju Int. Airport -> Taxi (about 4,500 won / 2.1 miles)

International Clinic: please go to information desk on 1F

Please follow the steps below to file your claims to the TRICARE Overseas Program:

- 1) Fill out claim form: DD Form 2642. Please be sure to file inpatient, outpatient, and pharmacy claims separately. If you are filing multiple family members' claims, make sure to use separate DD Form with correct receipt attached for each family member.
 - a. Make sure all 13 boxes are completely filled out.
- 2) Attach your *itemized medical receipt* to the DD Form 2642. It contains charges for each service provided. Translation to English is not needed.
 - a. Attach Proof of Payment (credit card statement, cancelled check, electronic funds transfer, cash withdrawal, etc.) for payments over \$1,000USD.
 - b. Please include the diagnosis, describing why care was needed in box 8a.
- 3) Please try to submit each claim separately. Filing multiple claims together with one DD Form 2642 can cause confusion and delay in reimbursement.
- 4) Mail your claims to:

Non-Active Duty Service Members:

TRICARE Overseas Program P.O. Box 7985 Madison, WI 53707-7985 USA
--

Active Duty Service Members:

TRICARE Active Duty Claims P.O. Box 7968 Madison, WI 53707-7968 USA
--

*Please make copies of everything you plan to mail.

- 5) Claims support:
 - a. TRICARE Overseas ISOS Toll Free: 080-429-0880, option #2.
 - b. Online: www.tricare-overseas.com
- 6) If you need additional support or have questions, please visit your local Beneficiary Counseling and Assistance Coordinator (BCAC) located at Camp Humphrey's or Camp Walker.
 - a. DSN: 315-737-1433 or COMM: 0503-337-1433

****We encourage all of our beneficiaries to file your claim forms to TRICARE Overseas AS SOON AS POSSIBLE after you receive care.**

환급신청방법은 다음과 같습니다.

1) 클레임폼은 DD Form 2642 입니다. 입원, 외래, 약국 각각 따로 청구하십시오. 환자가 여럿인 경우, 가족별로 클레임폼을 따로 작성하여 별개의 클레임으로 만들어 보내셔야 합니다.

a. 클레임폼 1-13까지 빠뜨리지 않고 기제합니다.

2) 의료비영수증을 DD 양식 2642에 첨부하십시오. 영수증은 진료내역과 금액이 명시된 영수증이어야 합니다. 진료비영수증의 영어 번역은 필요하지 않습니다.

a. 한번에 미화 1,000달러 이상 납부하셨을 경우, 결제증명서 (신용카드 명세서, 사용한 수표의 복사본, 전자 자금 이체 증명, 현금 인출 증빙등)를 첨부하셔야 합니다.

b. 클레임폼 8a에 진단명을 영어로 쓰십시오. (예: Cold, Cataract, Rhinitis 등)

3) 가지고 계신 영수증이 여러장일때, 클레임폼 한장에 영수증 한장씩 별도로 제출해 주시기 바랍니다. 하나의 클레임폼에 여러장의 영수증을 첨부할 경우 혼란과 상환 지연이 발생할 수도 있습니다.

4) 환급신청 우편발송 주소:

현역군인제외 모든사람:

현역 군인:

TRICARE Overseas Program
P.O. Box 7985
Madison, WI 53707-7985
USA

TRICARE Active Duty Claims
P.O. Box 7968
Madison, WI 53707-7968
USA

**** 꼭 복사본을 남겨두고 우편발송 하십시오.**

5) 환급신청 상황 체크하는 곳:

a. 인터네셔널 SOS (ISOS): 수신자 부담 전화 080-429-0880 옵션 #2. (24시간 서비스 가능)

b. 온라인으로 환급신청할 때: www.tricare-overseas.com

6) 환급신청시 도움이 필요하거나 질문이 있는 경우, 캠프햄프리카나 캠프워커에 위치한 BCAC(비책: 상담및 도움 코디네이터)을 방문하십시오.

a. 영내전화번호 (315) 737-1433 / 영외에서 전화거실 때는 0503-337-1433

**** 진료비 영수증을 오랫동안 모으시 마시고 진료 직후 가능한 빨리 환급신청 하실 것을 적극 권장합니다.**

USING OTHER HEALTH INSURANCE

If you have any health insurance other than TRICARE, it is called “other health insurance.”

This means your other health insurance pays first.

Tell TRICARE Overseas ISOS when you have other health insurance.

Call contractor at 080-429-0880 Option 2

If TRICARE gets your claim before your other health insurance processes it, TRICARE will deny it.

If TRICARE pays first and then discovers you had other health insurance, TRICARE will take back any payments made. They will only reprocess your claim after your other health insurance does.

Follow the rules of your other health insurance for getting care and filing claims.

If your other plan doesn't cover the entire cost, file a claim with TRICARE.

List of Accepted OHIs at Korean Hospital In AREA I and II

CAUTION! YOU MUST CONTACT AND ASK THE KOREAN HOSPITAL FIRST.
